

Planting instructions

MIRAGE, VIVA, HARMONY & ELEGANCE PLANTERS

Self-Watering Planters with inside separator and overflow protection (for outdoor use)

STEP 1 OUTDOOR USE ONLY

Carefully punch out (with a hammer and a flat screwdriver) or drill a 3/8" - 9,5mm hole in the cavity at the bottom of the planter (marked: "Punch out X for drainage").

STEP 2 OUTDOOR AND INDOOR USES

Place plant in the planter.

WARNINGS

- To avoid damage to inside separator, do not punch out or drill too deep.
- Do not punch out or drill outside the cavity. This will eliminate the water reservoir.

• DO NOT PUNCH OUT FOR INDOOR USE.

STEP 3 OUTDOOR AND INDOOR USES

Fill planter with a high quality potting soil and plant material to approximately 1" - 2,5cm from top.

ADDITIONAL INFORMATION

• When planter is pierced for drainage (OUTDOOR USE ONLY), the excess water from rain or overwatering will escape (overflow protection).

• Water when surface of soil feels dry or according to plants' needs.

• Add fertilizer according to plants' needs

STEP 4 OUTDOOR AND INDOOR USES

Dampen with water.

VOLUME CHART OF WATER RESERVOIR AND SOIL ON NEXT PAGE
